GARMIN CATALYST™

DRIVING PERFORMANCE OPTIMIZER

NEW PRODUCT ANNOUNCEMENT

PRODUCT OVERVIEW:

Garmin Catalyst is an industry-first virtual racing coach and driving performance optimizer¹ that's changing the world of motorsports. It mounts in the cockpit to gather your performance data and provide real-time audible coaching. Immediate session analysis helps drivers of all levels achieve their full track driving potential. Groundbreaking True Track Positioning™ technology uses built-in accelerometers, 10 Hz multi-GNSS positioning and image processing to automatically generate your car's racing line on the track. Plus, our revolutionary True Optimal Lap™ technology shows your best achievable time, based on lines you actually drove and can repeat. While on the track, hear real-time coaching cues through a compatible headset or car stereo. After your session, use the touchscreen display to immediately review your performance data and see your major areas for improvement.

DRIVING PERFORMANCE OPTIMIZER

NEW PRODUCT
ANNOUNCEMENT

KEY FEATURES:

- NEW TRUE TRACK POSITIONING™** To automatically generate your car's racing line on the track, ground-breaking True Track Positioning™ technology uses built-in accelerometers, image processing and 10 Hz multi-GNSS positioning
- NEW LIVE AUDIO COACHING CUES** Receive real-time audio coaching cues in a compatible headset or stream through your car stereo via BLUETOOTH®
- NEW TRUE OPTIMAL LAP™** Shows your best achievable time, based on lines you actually drove and can repeat
- NEW SEE AREAS OF GAIN** Automatically interprets your data to show biggest areas of gain right on the 7" Catalyst display; no computer needed
- NEW REMOTE CAM IMAGE PROCESSING** Included Remote Cam with attached polarized lens cover records crisp 1080p video which can be played back on the Catalyst device with time-synced overlays showing speed, lap data and more
- NEW PERFORMANCE METRICS** Shows best lap time, adaptive delta time, number of laps and session time. Easily compare your performance data from other sessions, and get immediate, adaptive suggestions
- NEW TRACK DATABASE** Comes preloaded with a global track database with the ability to add more road courses as well
- NEW ON-DEVICE SESSION ANALYSIS** Immediately review in-depth performance data on your Garmin Catalyst device
- NEW ACCESS DATA USING GARMIN CONNECT™** In addition to the in-depth data provided on your Catalyst device, users also have the option to access data summaries on a mobile device or computer using Garmin Connect™
- NEW SECURE MOUNTING OPTIONS** Securely position Catalyst inside the cockpit using the included heavy-duty suction up or screw down mount
